

SUNNY WEBBOX

- System access from any Web browser - anywhere in the world
- Recording of daily, monthly and annual energy yield via Sunny Portal

- Remote plant diagnosis
- Remote system configuration
- Automatic data transfer at chosen intervals

- Data storage and display via Ethernet
- Compatible with all SMA utility interactive inverters

- Low power consumption
- Automated communication with Sunny Portal

SUNNY WEBBOX

Web-enabled data logging and control

The Sunny WebBox is a powerful communications tool that allows the performance data of your solar power system to be logged and easily transmitted via modem or Ethernet to the internet or directly to your PC. It can also send the data to SMA's internet portal (Sunny Portal), which provides free long-term data storage and graphical display of your system's performance data. Collected information is stored in common file formats so that it can be used in various spreadsheets, graphs or your own web site. The Sunny WebBox is extremely versatile, making the storage, transmission, management and display of your system data easier than ever before.
